OPERATING PAUSE

TWINLEVEL^o TLI Vision Wheel

THE CONVENIENT OPERATING DEVICE WITH DISPLAY

TLI Vision Wheel is a convenient user interface for TLC Double and Triple mixing valves. The high-quality display uses icon-based dialogues to guide the user through the menu. The icons are simple and intelligible to people of all languages, making TLI Vision Wheel ideal for use at home or in hotels.

Additional functions such as automatic switch-off, temperature restriction, diagnostic mode, and hygienic flushing can be accessed via a protected input area. In addition to the current temperature, the integrated Greendicator® displays actual water usage, providing a greater impetus to conserve water.

TRIED-AND-TRUE TLI WHEEL

All TLI Wheel features integrated – from QuickAccess to scalding protection

HIGH-QUALITY DISPLAY

OLED display featuring an easy-to-understand icon-based menu

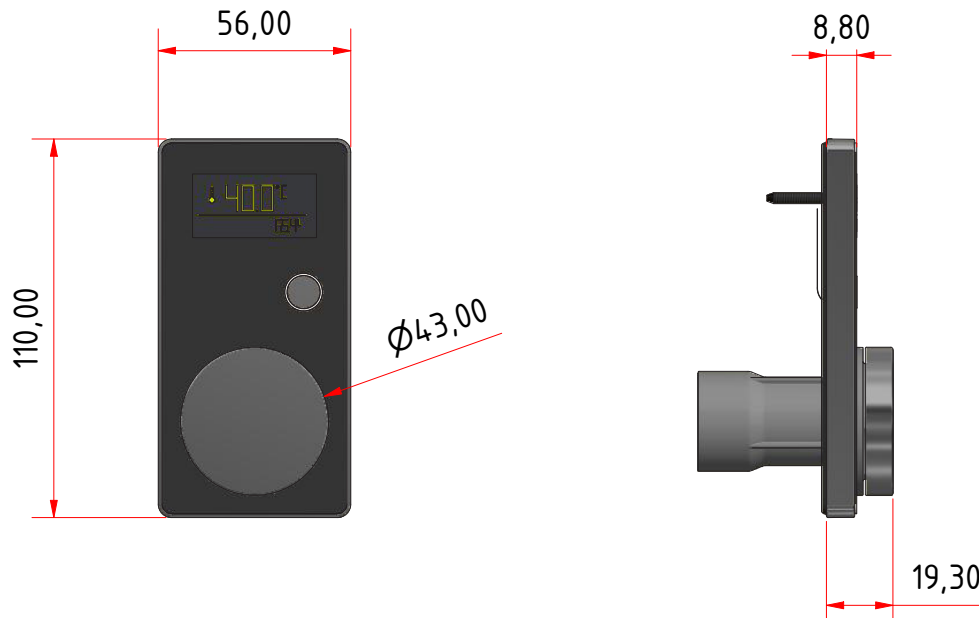

GREENDICATOR®

Displays current water consumption level
