**0.1–10 bar**
PRESSURE RANGE

**max. 22 l/min at 3 bar**
FLOW RATE

**2×M10×1 Eco Brass**
INPUT

**JG, ⅜" external thread, ½" external thread Eco Brass**
OUTLET

TWINLEVEL

# TLC Temperature

THE COMPACT THERMOSTATIC MIXER

TLC Temperature is a compact thermostatic mixer for kitchen fixtures, bathroom sinks, and showers. The combination of powerful drive and individually sealable Flühs ceramic cartridge guarantees exceptional quality and durability. Two processors provide continuous monitoring of both the functions and the electronics. TLC Temperature is hywise-compatible and easy to integrate into the water management system.

Multiple operating concepts and enhancements allow for fixtures that are especially attractive and innovative. In addition, an optional TLC Flow H1 can be connected to control the water flow.

The Multilevel Dispenser (MLD) transforms kitchen fixtures into fully functional kitchen appliances. A single unit can dispense up to three different types of water – boiling, sparkling, or filtered.

**RELIABLE AND HYGIENIC**
Ceramic cartridge from Flühs
Membrane-free design with zero dead space

**QUICKACCESS**
Three temperature settings and programmable flow rate

**HYWISE-COMPATIBLE**
Easy integration into the digital water management system

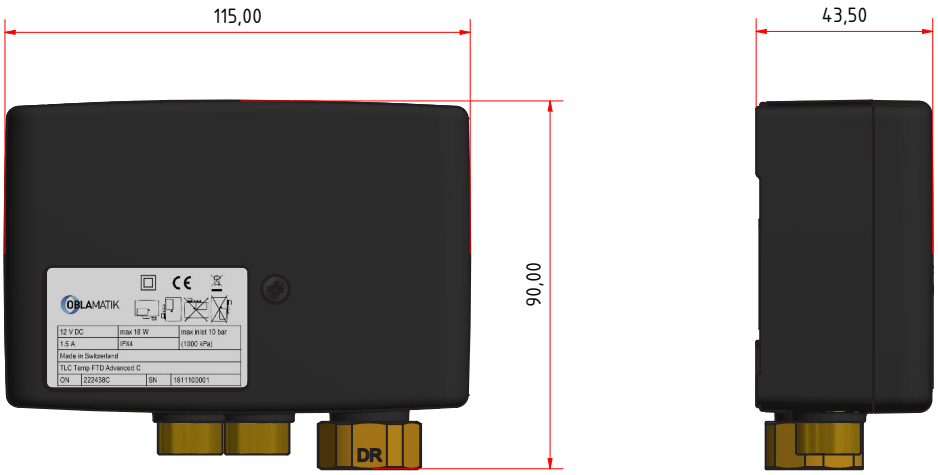
Flühs equipped

INVENTED + MADE IN SWITZERLAND

OBLAMATIK



**DIMENSIONS** 100 × 70 × 40 mm

# Specifications

## TECHNICAL DATA

ELECTRONICS

**POWER SUPPLY**
12 V DC

**POWER CONSUMPTION**
Standby < 1 W, max. 15 W

**ELECTRICAL OUTPUTS**
Max. 3 external actuators
(drain valve and solenoid valve)

WATER PATH

**INPUT**
2 × M10 × 1 Eco Brass

**OUTLET**
JG, ⅜" external thread,
½" external thread Eco Brass

**FLOW RATE**
max. 22 l/min at 3 bar,
open outlet

**PRESSURE RANGE**
0.1–10 bar

## USER INTERFACES

- TLI Air
- TLI Wheel
- TLI Mini
- TLI Exchange
- Netlevel
- RS232
- UART

**OPTIONAL**
Netlevel IoT module for voice control
hywise Air, AirCon, or WireCon
for integration into the
hywise water management system
